
TWIN PEAKS

WOW

TWIN PEAKS

Design dialogue between volumes and chromatic elections as a common thread, with a contemporary and cosmopolitan feel.

There are no longer any constraints to the customer´s imagination.

This is the beginning of a story made of stunning and extraordinary unique spaces.

Where well being joins design.

-

Diálogo de diseño entre volúmenes y elecciones cromáticas como hilo conductor, con un toque contemporáneo y cosmopolita.

Ya no hay restricciones para la imaginación.

Este es el principio de una historia compuesta por espacios extraordinariamente únicos.

Donde el bienestar se une con el diseño.

BEFORE INSTALLING THE PRODUCT
The surface where the product is being installed must be clean and level.
It is recommended that the layout of the product is prepared before the final installation.
Make sure you choose an adhesive apt for the area where the product is being installed.
For installation on porous surfaces we recommend: Kerakoll Special® Eco, and for Non-porous surfaces: Kerakoll serie H40® Eco.

The choice of quality grouting mortar is crucial.
We recommend Kerakoll Fugabella® Color.
(www.kerakoll.com)

TO ENHANCE YOUR WOW PRODUCT
In order to obtain the maximum WOW effect, use 1 mm - 0.039 in spacers between the tiles to maintain an even installation over the whole surface.
The colour of the grout should be as close as possible to the colour of your product.
Once the area has been grouted, and before the grout dries, remove any excess material with a damp sponge.

MAINTENANCE
Maintenance free. Easy and practical to care for, due to the high standard of technical characteristics in each WOW ceramic product.
Avoid abrasive or acidic cleaning products.
It is recommended to clean with clear water.

RECOMMENDATIONS
All Twin Peak pieces have a side glazed, allowing to combine in the same installation the four different height reliefs LISO XL, LOW, MED and UP .

Capture the QR code (page 26) to watch the installation tips:

ANTES DE LA COLOCACIÓN
Preparar la superficie sobre la que se va a colocar tu producto WOW. Debe estar limpia y aplomada.
Se recomienda plantear la colocación, previo a su instalación.
Elegir el material de agarre en función de las características de la superficie.
Se recomienda para colocación general en superficies porosas: Kerakoll special® Eco. y para superficies no porosas como el pladur: kerakoll serie H40® Eco.

Es importante la elección de un material de rejunte de calidad. WOW recomienda utilizar el material de rejunte Kerakoll fugabella® Color (www.kerakoll.com)

PARA ENSALZAR EL ASPECTO DE TU PRODUCTO WOW
Se recomiendan separadores de 1 mm para colocar las piezas y conseguir de esta forma un aspecto WOW óptimo.
También es aconsejable que el color de rejuntado sea similar al color del producto elegido.
Una vez rejuntado el producto, y antes de que se endurezca, retirar el material sobrante de rejuntado con una esponja mojada en agua.

MANTENIMIENTO
Práctico y sencillo de limpiar, dadas las excelentes características técnicas del producto WOW, tan sólo es necesario un cuidado rutinario, evitando la utilización de productos abrasivos o ácidos.
Se recomienda limpiar exclusivamente con agua limpia.

RECOMENDACIONES
Todas las piezas de Twin Peaks tienen uno de los lado esmaltado, lo que permite combinar en una misma pared los diferentes relieves: LISO XL, LOW, MED y UP.
